NON-INFECTIOUS/NON-MEDICAL WASTE CERTIFICATION

Tradebe will not receive the following kinds of waste (including the generator's state's equivalent).

40 CFR 60.51c

"Infectious Agent means any organism (such as a virus or bacteria) that is capable of being communicated by invasion and multiplication in body tissues and capable of causing disease or adverse health impacts on humans."

29 CFR 1910.1030

"Other Potentially Infectious Material", means human body fluids: human secretions, blood, cerebrospinal fluid, synovial fluid, pleural fluid, pericardial fluid, peritoneal fluid, amniotic fluid, saliva in dental procedures, any body fluid that is visibly contaminated with blood, and all body fluids in situations where it is difficult or impossible to differentiate between body fluids; (2) Any unfixed tissue or organ (other than intact skin) from a human (living or dead); and (3) HIV-containing cell or tissue cultures, organ cultures, and HIV- or HBV-containing culture medium or other solutions; and blood, organs, or other tissues from experimental animals infected with HIV or HBV."

INDIANA Administrative Code

410 IAC 1-3-10 "Infectious waste", means waste that epidemiologic evidence indicates is capable of transmitting a dangerous communicable disease. The term includes, but is not limited to the following:

- (1) Contaminated sharps or contaminated objects that could potentially become contaminated sharps.
- (2) Infectious biological cultures, infectious associated biologicals, and infectious agent stock.
- (3) Pathological waste.
- (4) Blood and blood products in liquid and semi liquid form.
- (5) Carcasses, body parts, blood and body fluids in liquid and semi liquid form, and bedding of laboratory animals.
- (6) Other waste that has been intermingled with infectious waste.

The information in this document is not by any means a complete representation of EPA's or State's regulations or policies regarding infectious waste. Each State or Regional Office may vary therefore please contact your Region or State for additional information.

I hereby certify the waste material shipped, by (generator) _____ to Tradebe on manifest # _____ under profile # _____, meets the following requirements:

- A)** Has been rendered non-infectious and is neither infectious nor does it contain any organisms known to be a threat to human health. (this also includes materials which contain or have come into contact with tissue or body fluids derived from human or animal source); and,
- B)** Is NOT a Regulated Medical Waste (or the generator's state equivalent medical waste designation) in the waste origination state; and,
- C)** Has been inspected and the container and its contents do NOT contain any labeling or red bag material that would indicate an infectious waste. I understand that any waste I ship to a Tradebe facility must be properly packaged or surcharges/rejection will be applied.

This certification is based upon my knowledge of the material and:

___ The waste was never exposed to potentially infectious materials.

___ The following method of disinfection was employed:

*Chemical Sterilization: ___ (please check sterilization agent below)

Other: _____

*Common Disinfectants

Please Check

Bleach Solution

Gluteraldehyde

Formaldehyde

Phenol

Other / Cleaners:

(please specify)

I agree by affixing my authorized signature that I hereby certify that the above and attached description is complete and accurate and that no omissions of characteristics, composition or properties exist and that all known or suspected hazards have been disclosed. I also certify that each sample provided to Tradebe is representative of the waste material described above and give Tradebe permission and consent to make amendments and corrections and that I am an authorized agent of the Generator.
